LIPOSCULPT

Laser Liposculpt (also known as laser lipolysis) is a new, safe form of laser liposuction that can change your body almost instantly.

LipoSculpt uses the very latest Class 3, Type B cold lasers which reduce body fat by emitting low levels of laser energy which penetrates the skin between 9mm and 13mm making the fat cells “sweat” free fatty acids, glycerol and water. The fat cells shrink and the lymphatic system removes the fatty liquids through the body’s natural metabolic function.

LipoSculpt gives you the result of liposuction, but without the surgery. The treatment is non-invasive and painless, there are no needles or injections involved.

LipoSculpt can be used on:

Stomach, Thighs, Hips (love handles), Upper back fat, Lower back fat, Arms (bingo wings), Baby bulge, Double chins, Male breasts.

With exercise and a healthy lifestyle to go along with this treatment, you can achieve the best results for you. 10-12 treatments are recommended for maximum benefit.

NAIL ENHANCEMENTS

Nail enhancements are the ideal treatment if you have weak, thin or damaged nails, or you simply wish for your nails to be all the same length and shape.

Nails that have been subject to damage from previous treatments in a non-standard salon, require special care and attention – the protection given by a thin coating of either UV Gel or Acrylic will help protect your natural nail plate whilst your nails grow.

Our fully qualified technicians will provide a full consultation before each treatment. All our work is done by hand, therefore causing no damage to the natural nails.

Using Creative Nail Design Acrylic and Brisa Gel, our technicians will create beautiful thin nail enhancements that are super strong yet flexible enough to suit your lifestyle.
